

SIBILIUS

- Crafted in Italy
 - Brushed stainless steel chimney is paired with a gently curved glass canopy
 - Heat-overload sensor is a standard feature
- More than 30 ventilation hoods are offered in both wall-mounted or island-style models that reflect individuality satisfy personal tastes and match every sense of kitchen style.

The SU202-14 is a shining model of sophisticated elegance. It features a gently curved glass canopy combined with a high-quality brushed stainless steel chimney, and a quiet, yet powerful blower. A wireless remote allows the user to adjust the ventilation level on the 4-speed, 600-cubic-foot-per-minute blower from anywhere in the kitchen.

Other features that round-out the package include halogen lighting, dishwasher-safe filters, delay-off timer and a heat-overload sensor.
